

Serial No.: 10/606,177  
Art Unit: 3625

**AMENDMENTS TO THE SPECIFICATION:**

Replace the abstract with the following amended abstract:

A method of user data entry in communicating to a remote destination from a terminal includes displaying at least one data entry field to a user, automatically displaying a user selectable option in response to user selection of the data entry field, and providing access to an electronic wallet application for the transfer of data into the data entry field in response to user selection of the selectable option.

~~A method of user data entry, at a terminal, for communication to a remote destination comprising the steps of:~~

- ~~a) displaying at least one data entry field to a user;~~
- ~~b) automatically displaying a user selectable option in response to user selection of the data entry field; and~~
- ~~e) providing access to an electronic wallet application, for the transfer of data into the data entry field, in response to user selection of the option.~~

~~Fig. 3~~
